Your Insurance Career Starts Here!

Systems Support Programmer Analyst

Do you enjoy working with a variety of technologies, learning new skills while utilizing your existing knowledge, and keeping up to date with technology changes?

As a **Systems Support Programmer Analyst**, you will respond to application problems and issues and analyze current production jobs for efficiency, as well as analyze and code small enhancement projects. You will have the opportunity to respond directly to customers for problem solving and training.

At **Great West Casualty Company**, our mission is to be "the" premier provider of insurance products and services for truckers. Our identity, business, and success are linked to trucking, the industry that moves our nation's economy. If you desire to work for a stable company that is a leader in the industry, then we have a terrific opportunity for you.

<u>Location</u>: Corporate Office in South Sioux City, NE.

We are looking for candidates with the following:
- ★ Bachelor's degree or equivalent in programming experience.
- ★ Education or experience programming with object oriented languages such as JAVA, JavaScript, or RAD.
- ★ Good problem solving and reasoning skills with the ability to research, find problems, and make decisions quickly.
- ★ Ability to prioritize, handle diverse tasks and unpredictable daily routines.
- ★ Commitment to providing excellent customer service.

We offer you a challenging career with a competitive compensation and benefits package. To learn more or to **apply by July 31st**, please view the career section of our website at www.gwccnet.com. After visiting with us, you will agree that at Great West...The Difference is Service®.
